Rejected Cotton Plan.

Washington, Dec. 27.-Colonel Robert M. Thompson, of New York, head of the syndicate which proposed to advance \$50,000,000 for handling the Southern cotton crop, blames the Southern planter for the delay in putting the scheme into effect. He said here to-day that the syndicate was ready to proceed with the plan, which meant everything to the Southern farmer. He

We did not reject the plan, it was the South which rejected it, and the Southern farmers are opposed to it only because they do not understand it. They will have to be educated into the knowledge that our

be educated into the knowledge that our scheme is not a speculative one, as they have been led by certain interested parties in the South to believe.

As it is, a number of individual farmers of the South have expressed their desire to have us handle their crop for them on the plan which we proposed for the entire South. This will be a test which will show the rest of the South just what we intended, and it is probable that by next year others will be willing to fall in with the scheme.

the scheme.

The Southern cotton farmers this year will lose \$300,000,000, and the trouble is that at least \$200,000,000 of this will go abroad. The whole country, not only the South, will be the loser by the South's refusal to accept the economic proposition we submitted.
